

Konkan LNG Limited

(A Subsidiary of GAIL (India) Limited)

ENERGY POLICY

KONKAN LNG LTD. is committed to continuously improving energy performance in order to reduce environmental impact and to reduce costs as part of overall sustainability strategy.

Our Energy Management System (EnMS) will help us to:

Reduce energy consumption in all aspects of our activities.

Educate our workforce in the importance of energy efficiency.

Document and provide energy use information to achieve objectives and energy targets.

Uphold legal and other requirements related to our energy use.

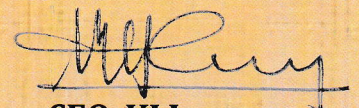

Continually improve our energy performance and EnMS.

Effectively procure energy efficient products and services in design activities and operations.

We will achieve this by encouraging our workforce to:

Understand and commit to this energy policy and energy management processes as applicable to their roles. Suggest opportunities for reducing or eliminating energy use in our activities. Support efforts to improve overall sustainability strategy.

Date: 20.08.2022

CEO, KLL
